Thickness	TL-Thickness mm approx.	Dimension	Pieces / package	Packages / pallet
approx. 21 mm	7-10	281 x 1645 mm	4	24

- **Gluing: SWP/1 NS (non structural):** solid wood panels for non-structural interior use. There is no risk of moisture penetration.
- Top layer solid wood in three different thicknesses.
- **Bottom layer:** Spruce 3-layer construction

More information concerning fire classification in the accompanying information to CE-marking.

You can find all detailed information at: **admonter.com**

ELEMENTS

The above picture shows an example of the natural character of the wood, this will vary in every panel. Variations in colour and grain patterns are natural and inevitable. A picture is never a substitute for the "real thing". For this reason we recommend a visit to your nearest Admonter dealer. He will be pleased to show you samples.
