FLOORs

LARCH

Top layer approx. 3,6 mm

Maintenance oil natural

Admonter FLOORs on underfloor heating systems
Admonter FLOORs are ideally suited for underfloor hea-ting systems. We suggest that our products ideally are fully glued down for best results with Admonter elastic adhesive. However, like all engi-neered boards our planks can be laid as a floating installation (except 2-layer floors and 3-layer floors small, they have to be fully glued down). We recommend hot-water underfloor heating systems set at low tem-perature. Please find detailed information in the information sheet Admonter FLOORs on underfloor heating systems!

Admonter accessories
The wide range of accessories matches the Admonter FLOORs and includes flush-mount skirting and solutions for staircases.

Regular care and maintenance
Please see the Admonter maintenance & installation instructions or visit www.admonter.eu/en/downloads/.

PLEASE NOTE: natural oiled easy care - NO INITIAL OIL TREATMENT IS REQUIRED! Repair and supplementary oils you can find in our Admonter price list. Further information about our products can be found at admonter.at
